Personal responsibility

Working outside normal hours

### **4. Policy Aims**

### **5. Objectives**

Risk Assessment

Safe System of Work

Organisational responsibilities

Employees

Health and Safety Management

### **6. Financial Implications**

### **7. References to other policies within the Organisation**

## **1. Introduction**

The purpose of this policy is to ensure that there are adequate systems in place to ensure the health, safety and welfare of lone workers in order to reduce the risks of lone working as far as is reasonably possible and practicable.

## **2. Definitions**

### **Lone Worker**

A lone worker is anyone who works in isolation from their colleagues without close or direct supervision.

Examples include:

- Office staff alone in the Parish Office
- Caretaker

### **Mobile - working away from their fixed base**

Examples include:

- Burial ground inspections.
- General site inspections and meetings

### **Own Employees**

This Policy applies to all employees permanent or temporary of Probus Parish Council and includes any agency, or visiting professionals employed to provide services on their behalf.

### **Contractors**

This Policy also applies to participating Independent Contractors and their employed staff.

## **3. Legal Requirements**

### **Applicable Laws**

Probus Parish Council has an obligation under the Health and Safety at Work Act 1974, to ensure the Health, Safety and Welfare of their employees. The Management of Health and Safety at Work Regulations (MHSWR) 1999 places a duty on employers to identify significant risks within the organisation and implement suitable risk treatments, to reduce those risks so far as is reasonably practicable.

### **Places of Work**

Where workers are on premises where someone other than their employer has control, their safety is the responsibility of the main occupier of those premises provided that the occupier is also an employer or conducting an undertaking there S.3 (2) of the Act.

Where an employer does not exercise control over the premises it is more difficult to ensure a safe and healthy environment. Regulation 10 of MHSWR requires employers (including self-employed i.e. Independent Contractors to provide comprehensible information on health and safety for others who are working on or visiting their premises.

### **Personal responsibility**

Section 7 of the Act requires employees to take reasonable care for the health and safety of themselves and of other persons who may be affected by their acts or omissions at work.

This policy and supporting training should ensure that such persons do not take short cuts or employ dangerous practices but that they are instructed to consider and identify potential hazards and to implement a form of risk assessment to ensure the safety of themselves and any of other persons they may be working with.

## **Working outside normal hours**

Where a person is required or requests to work after normal working hours and alone, it is necessary to identify the degree of risk in assessing whether or not this is a safe practice. Regulation 3 of MHSWR states that employers must make a “suitable and sufficient” assessment of any risks to the health and safety of their employees. Any such risks identified are likely to be greater for lone workers. These findings must be recorded on the risk assessment documents provided as part of your Health and Safety policy.

## **4. Policy Aims**

The aim of this policy is to ensure, so far as is reasonably practicable, that staff who work alone are not exposed to risks to their Health and Safety and to outline the steps to reduce and improve personal safety of staff who work alone.

The policy also aims through its rollout to raise awareness of safety issues relating to lone working.

## **5. Objectives**

The objectives of this policy are to ensure:

1. Lone workers are identified.
2. That risks inherent in lone worker situations are assessed and suitable precautionary measures taken
3. There is a local safe system of work which:
  - tracks the movement of lone workers
  - follows an agreed system for locating staff who deviate from their expected movement pattern
  - identifies when lone working is no longer appropriate

## **Risk Assessment**

Risk assessment is the overall process of performing a systematic written risk analysis and risk evaluation in order to identify methods to control the severity of the risk.

Risks to be assessed during the process include:

- Violence and Aggression
- Isolated areas/ difficult terrain
- Sudden illness
- Building conditions
- Substances Hazardous to Health
- Animals
- Vehicle breakdowns
- Weather hazards

This list is not exhaustive and other risks may be identified during the assessment process.

## **Safe System of Work**

Classification; A method of working which addresses risks that cannot be controlled in any other way. Safe systems of work are dynamic systems, which means they should be constantly monitored to identify weakness and improve methods of controlling the risk. Localised protocols such as a “buddy system” for safe working should be considered and encouraged.

Systems of work should be designed to reduce the need for lone working where possible. If this is not possible, safe work practices should be implemented, in line with the findings of a general risk assessment, to avoid or minimise the possibility of abuse. Radios, personal attack alarms, mobile phones and physical barriers should only be used in conjunction with safe practice.

### **Organisational responsibilities**

Responsibilities for the health and safety of lone workers are allocated as follows:

Full Council

### **Other Managers**

Parish Clerk

To identify all staff likely to work regularly in isolation from their colleagues.

To assess the risks that such lone working presents.

Having assessed the risks, to decide whether lone working is reasonable or not in these situations.

To report to the Council any situation where the risks cannot be controlled.

If lone working is considered reasonable, then the Clerk must ensure that suitable precautions are in place, such as:

- Mobile telephone
- Giving information on known risks
- Reporting in procedures
- Recording identified risks on the local risk register.

1. To ensure all staff that work alone are made aware of this policy.

2. To support staff who are victims of violence and aggression.

### **Employees**

1. Identify any activity carried out by them which will involve them working alone for more than one hour.

2. Comply with any precautionary measures.

3. Provide any of the following information that may be needed to set up a safe system of work:

- Working alone at the beginning and end of the normal working hours
- Daily out of base work place
- Detail of the make, model, colour and registration number of the vehicle being used.
- Notifying any changes to the daily out of base work plan (i.e. ad-hoc or “spur of the moment” visits).
- Informing key person (“buddy”) on return to base.

4. Report to their manager/Council any unsafe or potentially unsafe situations, and to report incidents in which violence or aggression or threats occur using the incident reporting procedure.

5. Take reasonable care for their own safety and not expose themselves to unnecessary risk.

6. To attend any training provided.

### **Health and Safety Management**

Parish Clerk to provide advice and information to the Parish Council and employees on matters of personal safety.
